**European Proceedings of Educational Sciences (EpES)** is an open access, peer-reviewed and refereed series. The main objective of the EpES is to promote interdisciplinary studies on the current developments in all fields related to the discipline of educational sciences.

The EpES publishes theoretical, experimental or application-based works with the objective of contributing to a greater understanding and development of educational sciences. To be considered for review, papers must be written in internationally accepted standard English, utilize a valid, rigorous and scientifically accepted methodology within the discipline and abide by all the stated guidelines for paper submission as set out in EP.

EpES publishes either monographs for example, master thesis/doctoral dissertations or edited volumes based on the outcomes of conferences.

Once published, all proceedings are submitted to the for evaluation and possible coverage in **Web of Science Conference Proceedings Citation Index - Social Sciences & Humanities (CPCI-SSH)**.

# Preface

We are delighted to present the proceedings of the 9<sup>th</sup> International conference Edu World 2022 with the main theme “Education Facing Contemporary World Issues”, EDUWORLD 2022, which encompasses a collection of double peer-reviewed papers on various topics related to the educational sciences and that was jointly organized by University of Pitești and University of Bucharest, Romania, on 3<sup>rd</sup> – 4<sup>th</sup>, 2022, June. Since its 1<sup>st</sup> edition in 2004, the conference become one of the most important events in educational sciences in Romania with a continuous growing of its audience and support of the relevant actors in educational field.

The objective of the conference was to create a debate conference concerning the great challenges which the contemporary society addresses to education of everywhere. The conference was equally opened to researchers, educational policies makers, strategists, managers and educators which are performing their activity in classrooms or in non-formal & informal educational organizations as well.

This edition of EDUWORLD 2022 Conference received support from scholars and colleagues from more than 33 Romanian universities and from universities in Albania, Algeria, Bulgaria, Portugal, Ukraine, and Republic of Moldova. The conference comprised of 14 sections covering a wide range of topics related to education, including educational policies, educational management, higher education, pre-university education, teacher education and training, vocational education and training, counseling in education and career development, technology-enhanced learning, educational psychology, special education, adult education, education by sport, health education and quality of life promotion, and a students' conference.

Throughout the review process, a total of 25 expert reviewers evaluated more than 230 abstracts, and the manuscripts underwent a rigorous double peer-review process to ensure their alignment with the conference's theme and adherence to its standards. The review committee comprised both internal and external reviewers with extensive expertise in the educational sciences. For a clear and an objective evaluation process we used an electronic platform for receiving and evaluating the papers. All the reviewers' comments were transmitted to the participants and the papers were accepted only after all the corrections were made. The acceptance rate of papers was 68.4%.

We were glad to see that the conference provided an exceptional platform for exchanging ideas, discussing viewpoints, and contextualizing many current debates on relevant educational issues. The event facilitated an enriching exchange of scholarly ideas, stimulating discourse, and critical engagement among educators, scholars, and practitioners.

We would like to extend our heartfelt appreciation to the participants, keynote speakers, forum panelists, and workshop facilitators for their contributions and participation in the conference. We also extend our gratitude to the organizing committee, technical team, moderators, and time-keepers for their hard work and dedication in making this event a grand success. This conference has undoubtedly left a lasting impression on the academic community, and we look forward to the possibility of organizing the next edition of EDUWORLD Conference in the second half of 2024.
